

Job Title: MS SQL DBA Systems Administrator

Company: Evangadi Tech

About Us:

Evangadi Tech is an agency building a team of talented developers, committed to delivering high-quality software solutions to clients worldwide. By emphasizing on quality, collaboration, and continuous improvement, we aim to create a team capable of competing with the best in the industry.

Job Description:

We are seeking a highly skilled and experienced MS SQL DBA Systems Administrator to join our team. The successful candidate will be responsible for managing, maintaining, and optimizing MS SQL databases and systems to support our clients' business needs. Additionally, the candidate will develop courses and training materials to assist team members, students, and clients in understanding database administration best practices.

This role requires a strong understanding of MS SQL Server architecture, database management best practices, a commitment to delivering high-quality solutions, and a passion for teaching and mentoring others.

Key Responsibilities:

- Design, develop, and maintain robust MS SQL databases to meet business requirements.
- Perform database administration tasks including installation, configuration, upgrades, patching, backup, and recovery.

- Monitor and optimize database performance to ensure high availability and reliability.
- Implement and manage database security measures to protect sensitive data.
- Collaborate with developers, data analysts, and business stakeholders to understand database requirements and deliver solutions that meet their needs.
- Automate database management tasks using scripts and tools.
- Ensure data quality and integrity across all database processes.
- Develop training materials, provide training, create documentation, and conduct knowledge transfer sessions.
- Mentor junior team members and provide technical leadership and guidance when needed.
- Stay up-to-date with the latest SharePoint and Microsoft technologies and trends.

Requirements:

- Bachelor's degree in Computer Science, Information Technology, Engineering, or a related field is preferred.
- Proven experience as an MS SQL DBA Systems Administrator with a strong portfolio of successful projects.
- Strong knowledge of MS SQL Server architecture, database administration, and best practices.
- Proficient in database management tools and scripting languages such as T-SQL and PowerShell.
- Experience with performance tuning, backup and recovery, and disaster recovery planning.

- Familiarity with cloud platforms such as AWS, Azure, or Google Cloud is a plus.
- Excellent problem-solving and analytical skills.
- Strong communication and interpersonal skills.
- Ability to work independently and as part of a team.
- Certification in MS SQL Server or related database technologies is a plus.

Job Type:

- Full-time

Benefits:

- Competitive salary and benefits package
- Opportunity to work with a talented and visionary team
- Professional growth and development opportunities
- Flexible work environment

Application Deadline:

- June 30th, 2024

How to Apply:

Interested candidates are invited to submit their resume, cover letter, and portfolio to jobs@evangaditech.com. Please include "**MS SQL DBA Systems Administrator Application**" in the subject line.
