Job Title: SharePoint Developer

Company: Evangadi Tech

About Us:

Evangadi Tech is an agency building a team of talented developers, committed to delivering high-quality software solutions to clients worldwide. By emphasizing on quality, collaboration, and continuous improvement, we aim to create a team capable of competing with the best in the industry.

Job Description:

We are seeking a skilled and experienced SharePoint Developer to join our team. The successful candidate will be responsible for designing, developing, and maintaining SharePoint applications to support our clients' business needs. Additionally, the candidate will develop courses and training materials to assist team members, students, and clients in learning how to use and develop SharePoint-based solutions.

This role requires a strong understanding of SharePoint architecture, development best practices, a commitment to delivering high-quality solutions, and a passion for teaching and mentoring others.

Key Responsibilities:

- Design, develop, and deploy custom SharePoint Online solutions to meet business requirements.
- Customize SharePoint sites, lists, libraries, workflows, and web parts.

- Provide technical support and troubleshooting for SharePoint-related issues.
- Ensure SharePoint solutions are scalable, maintainable, and adhere to best practices and standards.
- Develop training materials, provide training, create documentation, and conduct knowledge transfer sessions.
- Mentor junior team members and provide technical leadership and guidance when needed.
- Stay up-to-date with the latest SharePoint and Microsoft technologies and trends.

Requirements:

- Bachelor's degree in Computer Science, Information Technology, Engineering, or related field is preferred.
- Proven experience as a SharePoint Developer with a strong portfolio of successful projects.
- Strong knowledge of SharePoint Online architecture, workflows, customization, administration, and development best practices.
- Proficient in programming languages such as C#, .NET, JavaScript, HTML, CSS, and SQL Queries.
- Experience with Microsoft Power Apps, Power Automate, Canvas Apps, Model Driven Apps, Data verse, Dynamic 365, Azure, C#,
- Excellent problem-solving and analytical skills.
- Strong communication and interpersonal skills.
- Ability to work independently and as part of a team.
- Certification in SharePoint or related Microsoft technologies is a plus.
